

PETITION FOR A COMOX VALLEY LOCAL GOVERNANCE REVIEW

To the Honourable the Legislative Assembly of the Province of British Columbia, in Legislature Assembled:
The petition of the undersigned citizens, residents of the Comox Valley Regional District, states that our current structure of local governments has developed over time and has resulted in a multi-layered approach on how services are provided for our different communities.

But much has changed since those local governments were created.

What we need to do now is decide on our future governance direction. We request the Province of British Columbia initiate an independent Governance Review of the Comox Valley so that collectively we can determine what is the best form of governance that will efficiently provide the resources and services we require.

Your petitioners respectfully request that the Honourable House take such action as may be deemed appropriate.
